HAVE YOU SEEN THIS DOG?

Of course you have because he is wearing the WatchDog activity tracking device!

A simple way to keep up with your pet’s health and location!

🚀 When the dog is on a safari simply track them with the built-in GPS unit
🚀 Track the number of steps taken with the onboard pedometer
🚀 Set reminder alerts to never miss another medication dose
🚀 Color coded collars to alert strangers to their behaviors before approaching
🚀 Scan the QR codes to:
  📝 See the pet and owner’s information
  📝 Automatically text and e-mail the owner
  📝 Read notes and medical conditions

Compatible with any smart device or computer!
