Hunger Master Co.  
Changing the Face of Pet Food  
Alex Polivchak
Hunger Master Co. is here to change the way you think about your pets being fed. We want to revolutionize the pet feeding industry helping those who are disabled or frequent travelers have the piece of mind.

The Hunger Master is a revolutionary new pet feeder that gives you all the features that you could ever want with an easy to use system. The feeder is a plug and play system that all you need to do is to plug it in and it will automatically monitor the time and feed your pets a preset amount of times a day, allowing you to be free of the multiple times a day. The Hunger Master is a self-contained unit that will work with no intervention for up to 10 days before having to fill it back up with food.

Assumptions.
- Has a pet
- Would like to automate parts of their life
- Possibly has a disability

Programing.
The Hunger Master is fully programmable for advanced users. If you wish to you can connect to the Hunger Master using a laptop or Desktop with a program called Putty. All you have to do is connect using the static IP set for your device and access the program in the command line. From there you can adjust the amount of times your pet is fed per day, what times of the day your pet gets fed, and the amount of food the pet gets per feeding.

Standard Features
The Hunger Master is currently set up to feed a total of 4/5th of a cup per day split over three feedings. The feedings are scheduled for 7AM, 3PM and 12AM ensuring your pets are fed throughout the day.

The Standard unit is capable of feeding 1-3 pets by expanding from the main unit to also having an auxiliary feeder on either side. All feeders will work together and feed each pet at the same time.

Who is The Hunger Master For?
The Hunger Master is aimed at people who may have a disability where they are unable to get up to feed their pets easily or maybe someone who travels.
